1. INTRODUCTION

The International Journal of Artificial Intelligence, Quantum Computing and Cyber Security **(IJAQC Online)** is an international, peer-reviewed, open-access scholarly journal dedicated to publishing high-quality theoretical, empirical, and interdisciplinary research in the rapidly evolving fields of Artificial Intelligence (AI), Quantum Computing (QC), Cyber Security (CS), Data Science, Intelligent Systems, and emerging digital technologies.

The journal serves as a global platform for researchers, academicians, scientists, industry professionals, policymakers, and technology innovators to disseminate original research, novel methodologies, practical applications, and technological advancements that contribute to the future of intelligent computing.

IJAQC Online aims to bridge the gap between academic research and industrial innovation by promoting interdisciplinary studies that integrate artificial intelligence with quantum technologies, cyber resilience, cloud computing, blockchain, the Internet of Things (IoT), robotics, digital transformation, and next-generation computing paradigms.

IJAQC Online follows a rigorous double-blind peer-review process to ensure the highest standards of academic quality, originality, integrity, and ethical publishing. The journal adheres to internationally recognized publication ethics and promotes reproducible, transparent, and impactful research. Authors are encouraged to submit interdisciplinary contributions that advance scientific knowledge while addressing global technological, societal, environmental, and economic challenges.

The journal aspires to become a leading international forum for the exchange of cutting-edge research and innovative ideas, fostering collaboration among universities, research laboratories, industry, government organizations, and international scientific communities.

Through the publication of high-quality research, **IJAQC Online** seeks to contribute to the advancement of intelligent technologies that are secure, ethical, sustainable, and beneficial to society.

2. TYPES OF MANUSCRIPTS

- Original Research Article
- Review Article
- Short Communication
- Case Study

3. SUBMISSION DETAILS

Authors shall submit:

- Cover Letter
- Manuscript (Microsoft Word)
- Title Page
- Ethical Approval Statement (where applicable)

The manuscript must not be under review by another journal.

4. MANUSCRIPT PREPARATION

Language : English
Use British English consistently throughout the manuscript.

File Format : Microsoft Word (.doc or .docx)
PDF files are not accepted for initial submission.

CALL FOR PAPERS

International Journal of Artificial Intelligence, Quantum Computing & Cyber Security (IJAQC) (ONLINE) invites Original Research Articles, Review Papers, Case Studies, Technical Notes, Short Communications and Book Reviews for its upcoming issues. Manuscripts are invited from researchers, academicians, scientists, industry professionals and research scholars in the broad areas of Artificial Intelligence, Quantum Computing, Cyber Security and allied disciplines.

All submissions are subject to a double-blind peer review process.

ARTIFICIAL INTELLIGENCE AREA

- Artificial Intelligence Applications
- Machine Learning
- Deep Learning
- Generative Artificial Intelligence (GenAI)
- Large Language Models (LLMs)
- Natural Language Processing (NLP)
- Computer Vision
- Robotics and Intelligent Systems
- Explainable Artificial Intelligence (XAI)
- Reinforcement Learning
- Multi-Agent Systems
- AI Ethics, Trust and Governance
- AI in Healthcare
- AI in Education
- AI in Agriculture
- AI in Finance and Banking
- AI in Marketing and Retail
- AI in Supply Chain and Logistics
- Intelligent Decision Support Systems
- Data Mining and Predictive Analytics
- Big Data Analytics
- Internet of Things (IoT) and AI
- Edge AI and Embedded Intelligence
- Smart Cities and Smart Manufacturing
- AI for Sustainable Development

QUANTUM COMPUTING AREA

- Quantum Computing Fundamentals
- Quantum Algorithms
- Quantum Machine Learning
- Quantum Artificial Intelligence
- Quantum Information Processing
- Quantum Cryptography
- Quantum Communication
- Quantum Networks
- Quantum Hardware
- Quantum Programming
- Quantum Error Correction
- Quantum Simulation
- Quantum Cloud Computing
- Quantum Software Engineering
- Hybrid Classical–Quantum Computing
- Quantum Optimization
- Quantum Computing Applications in Business
- Quantum Computing in Healthcare
- Quantum Computing in Finance
- Emerging Quantum Technologies

CYBER SECURITY AREA

- Information Security
- Network Security
- Cloud Security
- Cyber Threat Intelligence
- Ethical Hacking
- Digital Forensics
- Malware Analysis
- Cyber Risk Management
- Identity and Access Management
- Blockchain Security
- Mobile Security
- IoT Security
- Critical Infrastructure Protection
- Cyber Law and Digital Governance
- Data Privacy and Protection
- Zero Trust Architecture
- Secure Software Development
- AI in Cyber Security
- Cyber Security Awareness
- Incident Response and Digital Investigation
- Security in Quantum Computing
- Cyber Resilience

INTERDISCIPLINARY & EMERGING TECHNOLOGIES

- Artificial Intelligence and Quantum Computing
- AI for Cyber Security
- Quantum Cyber Security
- Blockchain Technology
- Digital Transformation
- Industry 5.0
- Smart Manufacturing
- Digital Twin Technology
- Metaverse Applications
- Extended Reality (AR/VR/MR)
- Cloud Computing
- Edge Computing
- High Performance Computing
- Green Computing
- Sustainable Digital Technologies

OUT OF FOCUS

IJAQC (ONLINE) also provides an opportunity for publication of high-quality research papers outside the core areas of Artificial Intelligence, Quantum Computing and Cyber Security, provided they are related to Computer Science, Information Technology, Data Science, Electronics, Electrical Engineering, Mathematics, Management, Digital Business, Healthcare, Education, Finance, Industry Applications, Law, Public Policy and other interdisciplinary domains.

Such papers will be considered under the "Out of Focus" category. The author guidelines, review process and publication standards shall remain the same.

FOR RESEARCH (Ph.D.) SCHOLARS

IJAQC (ONLINE) welcomes contributions from Ph.D. scholars, post-doctoral fellows, faculty members, scientists, industry professionals and independent researchers. Papers may be submitted individually or jointly with research supervisors. Research scholars may also request pre-submission guidance to improve the quality, originality and presentation of their manuscripts before the peer-review process.
